PICTURE IT

One of the things we put down from a wish list that a church gave us was digital photo frames. We thought it would be a better way for people to see what we are doing in The Gambia. This church was so gracious to buy two 15" frames that really get the attention we want at our display. One frame has still shots and the other has some videos. Even the children take the time to stop by and look at the pictures and how life is in Africa. Praise God for this new way of getting the information to the masses.

Since we are on the subject of pictures we thought this issue would be just right for it....enjoy.

FAMILY TIME

Nothing could be better than spending time with family...at least while we're in the States. Here is a collection of the enjoyment we have with our loved ones no matter where we are or go.

EASTER CELEBRATION

WITH DAD & MOM

HELPING MY NEPHEW

JOY RIDING

RIDING IN COUNTRY STYLE

NURSE #2 NURSE #3

The last newsletter contained news of the near fatal incident of Sandy's brother Dale. We are happy to report that God is still in the business of doing miracles. From having neurosurgery of having part of his skull removed on the 15th of April to his placement of it back where it should be six weeks later. Sandy and Paul were the extra care

that Dale needed at the hospital and at home. His wife Vicki was very much relieved and thankful we were there to help.

If we can make life easier for just one person or many that's what we are called to do..be a blessing where you are. What a joy it

was to be able to celebrate Dale's 50th and giving praise to The Almighty for this wondrous gift of life.

PLAY BALL

Spring and summer are baseball season!

We had the opportunity to help out another ministry that deals with special needs people. Dale and Vicki have been part of this for three years and since we're here we said we'd love to help. These people have some motor skills and are able to play or at least enjoy

this outlet for them. After the game we looked around and saw three ball fields filled with these special people and all those involved in helping. It takes a special kind of person to work with them full time. We now know better how to pray for the "Challenger League". Even though our time with them was short lived the joy of serving was indescribable.

KIDS ROCK

No better way to get kids to rock is to introduce them to the solid rock. A local church had asked if we could help out with their VBS program and being the softies we are for kids, how could we refuse? The church really went all out for their VBS and the theme was SON ROCK CAMP. It was produced nicely, but needed the extra emphasis

on the Spiritual truths. The great training we had received from Children's Ministries Institute taught us how to adapt what we learned into others material without

compromising the Gospel. The Bible time went well and Sandy got the chance to help two with assurance of their salvation. Kids rock when they know the real rock.

JUST STARTED

What you're just starting to work!!

Well, kinda yeah. Furlough is supposed to be a rest time too. And that we did when we had the chance between Dr. visits and playing nurse #2 and #3. So before we left The Gambia we purchased a number of items that the local artisans make. Our thoughts were to take donations for the crafts. People would ask how much we paid for this or that and then they would have to decide how much of a donation they were willing to give. In just a few meetings so far we have recouped the initial outlay and have over \$250 made for the camp/HQ project. Some have even given without taking a souvenir. Cool or what?!?

We are just getting started into our time here of sharing with churches and home

groups of what God is doing in The Gambia and can't wait to see how God is going to bless our time here.
